

The Working to End Violence Partnership

The Working to End Violence Partnership is dedicated to ending violence in Saskatchewan. The Partnership consists of 3 organizations: the Provincial Association of Transition Houses & Services of Saskatchewan, STOPS to Violence, and Saskatchewan SPCA.

The partnership is pleased to provide pet care kits to shelters and transition houses who wish to house pets with survivors of violence.

**Pet Care Kits for
Interpersonal
Violence
Shelters**

Survivors will delay leaving a violent home if they are not able to take their pet with them when they go.

Why is this important?

Leaving a violent home is not easy to do; for a survivor who has a pet, the decision to leave can be even more difficult.

While we cannot completely eliminate the stress experienced by someone leaving a violent home, we can try to make things easier by providing access to a pet care kit. These kits will ensure that shelters can provide a safe place for survivors of violence and their pet.

What's included?

Each kit will include all basic supplies needed to care for a pet. Each kit will vary slightly, however will include:

- A bag of pet food
- Food and water bowls
- Kennel or carrier
- Brush and nail clippers
- Bed
- Collar
- Toys
- Treats
- Leash, if applicable
- Litter & litterbox, if applicable
- Poop disposal bags, if applicable
- Scratching pad, if applicable

Our pet care kits have gone to dogs and cats, and other small animals including a hedgehog!

Who can access the kits?

Pet care kits are available to emergency shelters and transition houses, free of charge to the shelter and survivors.

We need your support

Pet care kits are valued at \$300. The Partnership is supporting survivors across Saskatchewan in times of crisis, but we need the support of generous donations to do so.
